CORNHOLE

Rules:

Cornhole is a four player game with two players on each team. To begin, place Cornhole Boards 8 metres apart, facing each other on a flat surface. One of the partners starts the game by throwing one of their Cornhole bags towards the opposite box and the game continues with each of the opposing partners taking turns throwing the rest of the bags. When all the bags have been thrown for that round, points are totalled and the next round begins from the opposite box with the other opposing partners taking turns tossing their bags. Determine the team who throws first by a coin toss or rock off and every round after that, the first throw goes to the team that won the previous round. Rounds continue until one of the teams reach 21 points or more.

Points:

Points are determined based on where the Cornhole bags land in relation to the boxes. Three points are awarded when a bag goes through the hole in the box, one point is earned if the bag lands on the box, hanging onto the hole or hanging off the box but not touching the ground. There are no points earned if a bag is hanging off the box but touching the ground or if a bag is hanging off the front of the box being supported by another bag unless you are able to remove the Cornhole bag on the ground without the other moving.

Scoring:

Points are totalled after each round. The team with the highest score of a particular round adds the difference between their score and the opposite teams to their running total. If both teams have the same score in any given round then no points are awarded to either team. The score stays the same and the first throw goes to the team who had the honours in the previous round.

Now that you know the rules you can master the game of Cornhole!
